

Job Description:

We are seeking a skilled and motivated **Automotive Technician** to join our team at Johnsons Auto Repair. As an Automotive Technician, you will be responsible for diagnosing, repairing, and maintaining a wide range of vehicles to ensure optimal performance and safety for our customers. The ideal candidate will have a strong technical background, excellent problem-solving skills, and a commitment to delivering high-quality service.

Key Responsibilities:

- **Vehicle Diagnostics:** Perform comprehensive diagnostic tests on vehicles using specialized tools and equipment to identify issues with engines, transmission systems, brakes, electrical systems, and other key components.
 - **Repairs and Maintenance:** Conduct repairs and maintenance on various types of vehicles, including minor repairs, part replacements, and more complex systems troubleshooting.
 - **Routine Maintenance:** Perform scheduled maintenance tasks, such as oil changes, tire rotations, brake checks, and fluid top-offs, ensuring that vehicles run efficiently and safely.
 - **System Overhauls:** Work on complex systems, including engines, transmissions, and electronics, providing full overhauls or upgrades when necessary.
 - **Customer Communication:** Effectively communicate with customers to explain findings, offer maintenance recommendations, and answer any questions related to their vehicles' condition.
 - **Record Keeping:** Maintain accurate and up-to-date records of work performed, parts used, and time spent on each job to ensure proper documentation and billing.
 - **Safety and Cleanliness:** Follow safety protocols and maintain a clean and organized work environment at all times.
 - **Stay Updated:** Continuously improve technical knowledge by staying current with industry trends, vehicle technology, and repair methods.
-

Required Qualifications:

- High school diploma or equivalent (ASE certification preferred).
- Proven experience as an Automotive Technician or Mechanic (3+ years preferred).
- Strong knowledge of automotive systems, diagnostic tools, and repair techniques.
- ASE certifications (such as in Engine Repair, Brakes, or Electrical Systems) are highly desirable.
- Ability to work efficiently under pressure while maintaining attention to detail.

- Good communication skills to interact with customers and team members.
 - Ability to lift heavy objects, bend, kneel, and work in various physical positions.
-

Preferred Qualifications:

- Associate's Degree in Automotive Technology
- Experience with advanced vehicle systems.
- Experience in working with diagnostic software and automotive repair platforms.
- Willingness to pursue further training and certification as required.
